WORK EXPERIENCE

Investment Analyst | Oklahoma State Treasurer's Office - Oklahoma City, OK *October 2025 – Present*

- Support the management of Oklahoma's \$17.7 billion fixed-income portfolio, executing \$100 million+ in daily trades and maintaining treasury cash positions to ensure 100% short-term liquidity across state accounts.
- Conduct market and interest-rate analysis across U.S. Treasuries, agencies, and MBS to identify yield-enhancement opportunities within statutory investment parameters, strengthening portfolio diversification and duration strategy.
- Prepare monthly investment reports, liquidity forecasts, and performance summaries for the CIO and oversight commissions, including governance support for the \$2 billion Tobacco Settlement Endowment Trust (TSET) and process improvements that increased reporting efficiency by 25%.

Senior Investment Analyst | ZB Financial Holdings (ZBFH) - Harare, Zimbabwe *February 2022 - August 2023*

- Managed a US\$64 million multi-asset portfolio spanning equities, fixed income, and infrastructure assets, optimizing allocation through a Python-based Modern Portfolio Theory framework and achieving a 22% improvement in portfolio Sharpe Ratio during a 285% hyperinflationary environment.
- Co-led an 8-person cross-functional team executing financial, commercial, and operational due diligence on the acquisition of Mashonaland Holdings, one of Zimbabwe's largest property firms, integrating the target as a subsidiary of ZB Financial Holdings.
- Coordinated legal, IT, HR, and finance workstreams throughout integration, delivering synergy assessments and post-merger reporting to the Investment Committee.
- Established and maintained relationships with international investors, pension funds, capital markets firms, and institutional clients, sustaining a 96% client retention ratio.

Investment Analyst | ZB Financial Holdings (ZBFH) - Harare, Zimbabwe *January 2020 – February 2022*

- Built Discounted Cash Flow (DCF) and Comparable Company Analysis valuation models that supported US\$3.2 million in successful investment approvals from the Investment Committee.
- Executed and settled equity trades exceeding US\$4.7 million in annual volume, maintaining a 99% trade accuracy rate.
- Built financial models for investment due diligence, sensitivity analysis, and scenario planning across private equity, agricultural, and infrastructure mandates.
- Developed and delivered executive-level financial presentations using PowerPoint, Excel, and Power BI, providing senior leadership with insights on capital structure, liquidity risk, and portfolio performance.
